| <u>Subject</u>   | <u>Interpretation</u> | <u>File No.</u> |
|--|-----------------------|-----------------|
| Certification to SA-649/SA-649M, Section II, Part A<br>(2004 Edition, 2006 Addenda) . . . . .                  | II-A-07-08            | 07-640          |
| SA-179/SA-179M Chemical Composition Requirements, Section II, Part A<br>(2004 Edition, 2005 Addenda) . . . . . | II-A-07-09            | 07-1764         |

**Interpretation: II-A-07-08**

Subject: Certification to SA-649/SA-649M, Section II, Part A (2004 Edition, 2006 Addenda)

Date Issued: February 20, 2008

File: 07-640

Question: A material manufacturer obtains forged material that is certified only to the chemical requirements for a selected grade in SA-649/SA-649M. May the material manufacturer certify the material in part to the requirements of SA-649/SA-649M in accordance with 1.4 of SA-788/SA-788M or on completion of all the requirements of SA-649/SA-649M certify the forging to that specification?

Reply: Yes.

**Interpretation: II-A-07-09**

Subject: SA-179/SA-179M Chemical Composition Requirements, Section II, Part A (2004 Edition, 2005 Addenda)

Date Issued: February 20, 2008

File: 07-1764

Question: Is the supply of material that specifically requires an additional maximum limit on an element that is not purposely added, other than those listed in 8.1 of SA-179/SA-179M, permitted?

Reply: Yes.
