

SECTION V

<u>Subject</u>	<u>Interpretation</u>	<u>File No.</u>
Article 2, T-273 (1971 Edition, Summer 1971 Addenda).....	V-13-09	14-318
Article 2, T-282 (2010 Edition).....	V-10-09	11-2175

Interpretation: V-10-09

Subject: Article 2, T-282 (2010 Edition)

Date Issued: August 22, 2012

File: 11-2175

Question: Is it a requirement of Article 2, T-290, to document the actual film density values for a radiograph?

Reply: No.

Note: This interpretation was inadvertently omitted from Vol. 62 of the interpretations.

Interpretation: V-13-09

Subject: Article 2, T-273 (1971 Edition, Summer 1971 Addenda)

Date Issued: June 24, 2014

File: 14-318

Question: Per the requirements of T-273 for double-wall radiography of welds 3½ in. or less in outside diameter, is it acceptable to radiograph a weld using a combination of both the offset method and the superimposed method, provided 100% coverage of the weld is demonstrated?

Reply: Yes.
