Number of teleconferences held in 2005 0

Date of last meeting (including teleconference): November 2005

Did you have a quorum? N

Date of next scheduled meeting None scheduled

Committee Balance: AK 3 AW 4 AQ 1 AB 1

Accomplishments since the last Report (2005):

Development of revised Object & Scope. Completion of few remaining assignments to result in Draft for industry review. Resolution of conflicts between example calculations and main text.

Propose new code percentage complete 80 %

Problem areas:

Need more members, especially manufacturers and Members from other PTCs that will refer to this Document. Most of this Document is now being written by one or two Members who have not been able to devote much time to this effort lately.

Assistance from Board requested:

Membership participation and development (see above)
