| **IWB-2420  SUCCESSIVE INSPECTIONS**  
(g) If welded attachments are examined as a result of identified component support deformation, and the results of these examinations exceed the acceptance standards of Table IWB-3410-1, successive examinations shall be performed, if determined necessary, based on an evaluation by the Owner. The evaluation shall be documented and shall include the cause of the welded attachment damage if known. If the cause of the welded attachment damage could recur or is unknown, successive examinations shall be performed in accordance with the requirements of (b) above. **No successive examinations are required if either of the following applies:**  
1. There are no other welded attachments subject to the same apparent or root cause conditions.  
2. The degradation mechanism no longer exists. | Delete the strikethrough text |

## IWD-2420 SUCCESSIVE INSPECTIONS

(e) If welded attachments are examined as a result of identified component support deformation and the results of these examinations exceed the acceptance standards of Article IWD-3000, successive examinations shall be performed, if determined necessary based on an evaluation by the Owner. The evaluation shall be documented and shall include the cause of the welded attachment damage if known. If the cause of the welded attachment damage could recur or is unknown, successive examinations shall be performed in accordance with the requirements of (b) above. No successive examinations are required if either of the following applies:

1. There are no other welded attachments subject to the same apparent or root cause condition.
2. The degradation mechanism no longer exists.
