Proposed Revision to QW-420:  (9th paragraph)

The column “ISO/TR 15608 Group” in Table QW/QB-422 is a listing of the assignments of materials in accordance with the grouping criteria of ISO/TR 15608:2005 *Welding — Guidelines for a metallic materials grouping system*, and it is consistent with the assignments found in ISO/TR 20173:2008 *Grouping systems for materials — American materials*. While this listing is provided as a convenience to users worldwide, it is provided for information only. Section IX does not refer to this grouping as a basis for establishing the range of base metals qualified for either procedure or performance qualification.

FOR INFORMATION ONLY:

QG-100 Scope (2019 Edition)

... 

(*f*) Throughout this Section, references are made to various non-ASME documents. Unless a specific date is referenced, the latest edition of the reference document in effect at the time of performance or procedure qualification is to be used.
