HG-531 Marking of Parts and Accessories

(b) The markings for the completed part or accessory shall be arranged substantially as shown in Figure HG-531.1 or Figure HG-531.2.

c) In lieu of such marking, small parts [5 in. (125 mm) O.D. and under] may be marked with an identification acceptable to the Inspector (e.g. bar coding, etching, paint stencil, etc.) and traceable to the Partial Data Report. Such marking shall be of a type that will remain visible until the part is installed. The Certification Mark is not required.

Renumber (c) & (d).

HLW-602.4

... 

c) the part manufacturer’s serial number.

In lieu of stamping these data directly on the vessel, a stamping plate, as described in HLW-602.3, may be used.

In lieu of such marking, small parts [5 in. (125 mm) O.D. and under] may be marked with an identification acceptable to the Inspector (e.g. bar coding, etching, paint stencil, etc.) and traceable to the Partial Data Report. Such marking shall be of a type that will remain visible until the part is installed. The Certification Mark is not required.
