

BOARD ON STANDARDIZATION & TESTING POLICY ON RENDERING INTERPRETATIONS

During a 1997 ASME Board on Standardization (BoS) meeting it was voted to prepare a BoS policy regarding interpretations of standards. The approved policy permits each Standards Committee under the jurisdiction of the BoS to select either of the following options for all their standards:

- (a) the Committee does not issue written interpretations of their currently published standards, and future Editions of their standards
- (b) the Committee does issue written interpretations of their currently published standards, and future Editions of their standards
