Issued on April 28, 2017 |
Issued on February 19, 2016  
**PINS # 714, Record # 19-3020** |
| HST-5: 2014 – Performance Standard for Air Chain Hoists | **PINS # 563, Record # 15-1384**  
**BSR-9 # 1979 Approved by ANSI on April 2, 2020**  
Issued on June 23, 2020 |
| HST-6: 2015 – Performance Standard for Air Wire Rope Hoists | **PINS # 583, Record # 16-461**  
Approved by HST 6/12/2020 Ballot #20-1607  
**BSR-8 #2644 Closes 9/8/2020**  
Approved by ANSI on September 11, 2020  
Issued on September 25, 2020 |

**BST** - Board on Standardization & Testing. BST approval takes from one week to six weeks depending whether a ballot is needed.

**BSR 8** - The BSR 8 is ANSI's public review. Public review through ANSI lasts 60 days but takes approximately three months.

**BSR 9** - The BSR 9 is final approval from ANSI. The period lasts from one week to one month depending whether a ballot is needed.

**LB** - Letter Ballot. This is the most recent Letter Ballot the particular proposal was sent out for.

**PINS** - A PINS form notifies ANSI and other Standards Developing Organizations that a project has been initiated or to revise or reaffirm a standard.
