Inquiry: What alternatives to the rules in ANSI/ASME N626-1985, Qualifications and Duties for Authorized Nuclear Inspection Agencies and Personnel, and, ASME QAI-1-2018, Qualifications for Authorized Inspection and earlier editions, may be used for the qualification of the Authorized Nuclear Inspector Supervisor (Concrete)?

Reply: It is the opinion of the Committee that as an alternative to the rules in ANSI/ASME N626-1985, ASME QAI-1-2018 and earlier editions, including all applicable addenda, the rules listed below may be used for the qualification of the Authorized Nuclear Inspector Supervisor (Concrete).

1.0 The Authorized Nuclear Inspector Supervisor (Concrete)

1.1 The Supervisor shall be selected and designated as such by the employer. The individual shall have qualified as an Authorized Nuclear Inspector Supervisor and as an Authorized Nuclear Inspector (Concrete).

1.2 The Supervisor shall have a working knowledge of the requirements of ASME Code Section III, Division 2, and related referenced codes and standards.

2.0 Responsibility for assuring qualifications of the Authorized Nuclear Inspector Supervisor (Concrete) in accordance with this Case rests with the Authorized Inspection Agency employing and assigning the Inspectors or Supervisor. The Authorized Inspection Agency shall inform the Certificate Holder and/or Owner when Supervisor’s qualifications have been established by the provisions of this Case.

3.0 Use of this Case shall be documented in the AIA’s Quality Program.
