Change Equation 1-5-4 in the V&V-20-2009 standard to read as follows:

\[ E = S - D = (T + \delta_S) - (T + \delta_D) = \delta_S - \delta_D \]

The equation, found on page 3 of the code V&V 20-2009, in the right hand column, in section 1-5 VALIDATION APPROACH, was mistakenly published with an equals sign (=) between the two terms in parentheses instead of a minus sign (−).
