Interpretation #: **PI-04-002**
Reference #: A112-DI-04-002
Date Issued: January 17, 2005
Subject: ASME A112.18.1-2003; para. 5.2, Package

Question: In the case of a private label, does the model number have to appear on the packaging also?

Reply: No. However, at the time of its presentation, it was the Committee’s intent that this Standard should require the model number to be included on all packaging. As such, the next revision of this Standard will correct this oversight.

ASME procedures provide for reconsideration of interpretations when or if additional information is available which the inquirer believes might affect the interpretation. Further, persons aggrieved by an interpretation may appeal to the cognizant ASME committee or subcommittee. As stated in the foreword of the code documents, ASME does not “approve,” “rate,” or “endorse” any item, construction, proprietary device or activity.
