Interpretation #: A112 PI-09-006

Subject: ASME A112.6.3-2001, Section 5, Top Load

Question: If a product fails at 6000 lbs its safe live load of 3000 lbs. In accordance with ASME A112.6.3-2001, Section 5 what duty should the product be rated?

Reply: A safe live load of 3000 lb would be categorized as medium duty.

ASME procedures provide for reconsideration of interpretations when or if additional information is available which the inquirer believes might affect the interpretation. Further, persons aggrieved by an interpretation may appeal to the cognizant ASME committee or subcommittee. As stated in the foreword of the code documents, ASME does not “approve,” “rate,” or “endorse” any item, construction, proprietary device or activity.
