Reply: YES

Question 06: If a bath or shower valve is self-closing or metering is the number of cycles required by Table 3, 150,000?

Reply: YES

ASME procedures provide for reconsideration of interpretations when or if additional information is available which the inquirer believes might affect the interpretation. Further, persons aggrieved by an interpretation may appeal to the cognizant ASME committee or subcommittee. As stated in the foreword of the code documents, ASME does not “approve,” “rate,” or “endorse” any item, construction, proprietary device or activity.
